DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-7, 13, 14, 15, 21-24, 27, 28, 29, 30, and 32 are rejected under 35 U.S.C. 102(b) as being anticipated by Quinn #5,252,001. Quinn discloses an array of elongate rods 10, 12, 14, 16, 18, 20 connected to one another by a rigid connecting element 32 with their longitudinal axes extending coplanar. The array of elongate rods are capable of being bent into an open formation defined by a borderline of arcuate shape.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 8, 9, and 16-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sullivan '310 in view of Wilcox #5,707,172. Sullivan discloses the claimed invention except for the array being anchored and the deck. Wilcox teaches that it is known to anchor an array and to provide a deck 25 on top of a floating rod/tube as set forth at column 2, lines 7-13. It would have been obvious to one having ordinary

skill in the art at the time the invention was made to provide a deck, as taught by Wilcox in order to provide a walkway on a floatable structure.

Allowable Subject Matter

5. Claims 10-12, 25, 26, 31, 33, and 34 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

6. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.
